Dancesport Lessons – Tuesday 20 October

Dear Parents/Carers

All students from Pre-primary to Year 6 will once again participate in Dancesport lessons provided by trained dance teachers from Humphreys Dance Studio. Over the last 14 years these lessons have been very successful and enjoyable and have enabled students to enhance their social skills.

These lessons form an integral component of the Australian curriculum and assist in providing students with a sequential and developmental dance sequence. They are given the opportunity to learn a number of dances, and from past experience, students all participate enthusiastically.

This year, lessons will be held on Tuesdays and Thursdays.

There are eight, hour long lessons [45 minutes for Pre Primary] commencing on Tuesday 20 October. All students are expected to participate. The total cost per student is $34.

Please note that a concession applies for those families with three or more children - payment is only required for two children. There is no charge for lessons for subsequent family members.

Please complete the attached slip and return it with payment by Friday 25 September 2015.
